McGuire's ProWrap®

Seamless Insulators Go Beyond ADA

- Seamless construction reduces installation time
- Antimicrobial additive inhibits bacterial growth
- PVC resin cushions pipes and blocks thermal transfer

Flexible, seamless, and available pre-assembled on our ADA strainers, P-Traps and continuous wastes, our patented ProWrap PVC resin covers go beyond ADA regulations.

The antimicrobial additive largely reduces areas where bacteria can grow mold, produce mildew stains and cause odors. (ASTM tested G-21, G-22) The seamless construction minimizes the use of trimming fasteners, reducing installation time. In addition, the covers provide resistance to thermal transfer and cushion the exposed plumbing pipes.

PRODUCT SPECIFICATION — PROWRAP PRODUCTS

Material: Molded closed cell vinyl, antimicrobial

Nominal Wall: 3/16"

Fasteners: None (Angle supply kit requires a tie)

Seams: None (Angle supply kit requires a seam due to installation method)

Durometer: 70 shore A

Color: Satin white

Burning Characteristics:
ASTM D 635: Less than 5 sec (ATB) 10 mm (AEB)

Heat Resistance:
ASTM C 177: BTU - in/hr - ft2 - °F K Value = 1.02

Fungal Resistance:
ASTM G-21: (Rating*) 0 fungal growth measured
ASTM G-22: (Rating*) 0 bacterial growth measured

*ASTM Rating - Observed Growth on Specimens
0 None
1 Traces of Growth (less than 10%)
2 Light Growth (10-30%)
3 Medium Growth (30-60%)
4 Heavy Growth (60%-complete coverage)
Environmental Controls:
Paper - 4, Cork - 1, Cotton - 4, Glass - 0

Note: *Class I or II ozone depleting substances are not used in the manufacturing of McGuire's ProWrap products.*
